### PROFESSIONAL SUMMARY

---

IT undergraduate (HNDIT) pursuing a concurrent Diploma in Cyber Security, with hands-on experience across web development, software engineering, and freelance client delivery. Built and shipped multiple production-style web applications using PHP, MySQL, JavaScript, C#, and Java, including an active order management system for a real freelance client. Three years of freelance experience on Fiverr (Level 1 Seller) managing client communication, revisions, and delivery independently. A fast learner able to pick up new tools, languages, and technologies quickly, with practical experience applying AI technologies (Claude AI, ChatGPT) to development and design workflows. Seeking a Software/IT Engineering internship to apply these skills in a professional team environment and grow as a developer.

### TECHNICAL SKILLS

---

- Web Development: HTML, CSS, JavaScript, PHP, MySQL
- Programming Languages: C#, Java, SQL
- Tools & Platforms: Git, GitHub, Visual Studio, Visual Studio Code, NetBeans, WordPress
- AI & Emerging Technologies: AI-assisted development with Claude AI and ChatGPT, prompt engineering, AI-integrated application features
- Design Tools: Adobe Illustrator, Adobe Photoshop, Figma, Canva
- Other: Responsive Web Design, Basic Networking, Cyber Security fundamentals (ongoing)
- Core Strengths: Fast learner who can pick up new tools, frameworks, and technologies quickly and apply them on live projects; strong client communication and independent project ownership

### PROJECTS

---

#### Freelance Creative Service Management System with Client Communication — Final Year Project

2026 – Present

- Building a web-based order management platform for a real freelance client, owning requirements, design, development, and testing end-to-end.
- Includes a PHP/MySQL web application and a companion Android admin app for order tracking.

#### Fund Management System — HNDIT Group Project

2025 – 2026

- Built a web application to manage funds for an HNDIT student batch using PHP, MySQL, and JavaScript, following SDLC methodology as part of a team.
- Implemented login, transaction records, and basic report generation features.

#### Portfolio Website — RuuGraphics (Personal Project)

2025

- Designed and coded a fully responsive personal portfolio site using HTML, CSS, and JavaScript, including a project gallery and WhatsApp contact integration.

#### Library Management System — University Assignment (C#)

2025

- Built a desktop application in C# for managing books, members, and borrow/return records.

#### Student Management System — University Project (Web App)

2025

- Developed a CRUD web application using PHP and MySQL.

### EXPERIENCE

---

#### Freelance Graphic Designer & Web Developer — Level 1 Seller, Fiverr.com

Self-Employed / Remote | 2023 – Present

- Delivered logo design, branding, flyer, and social media design projects for clients worldwide, reaching Level 1 Seller status through consistent quality and on-time delivery.
- Independently managed client communication, revisions, and file delivery across all projects.
- Expanded service offering from graphic design into full-stack web development and AI-integrated application features.

## EDUCATION

---

### Higher National Diploma in Information Technology (HNDIT)

SLIATE, Dehiwala | 2024 – Present

- Coursework: Web Development, Object-Oriented Programming (Java & C#), Databases, Networking, Software Engineering.

### Diploma in Cyber Security

NextGen Campus | 2025 – Present

- Coursework: Network security fundamentals, ethical hacking basics, security tools.

### G.C.E. Advanced Level

R/Balangoda Ananda Maithreya Central College | 2020 – 2023

## CERTIFICATIONS

---

- IT Essentials — Cisco Networking Academy
- Web Designing for Beginners — University of Moratuwa

## ADDITIONAL INFORMATION

---

- Special Skill: Fast learner — able to learn new technologies, frameworks, and tools quickly and apply them effectively on live projects.
- Comfortable working with AI technologies and AI-assisted tools (Claude AI, ChatGPT) for coding, design, and prompt engineering.
- Languages: Sinhala (Native), English (Conversational — proficient in reading and writing).
- Soft Skills: Client Communication, Time Management, Team Collaboration, Problem Solving, Creative Thinking.
